

TRACKMASTER® PLUS PRO SOFTWARE DOWNLOAD INSTRUCTIONS

The following screens are part of the installation process for the TrackMaster® Plus Pro Software. You should expect to see all these screens guiding you through the installation process. Depending on your computer's memory and operating system there may be a delay after beginning the installation process.

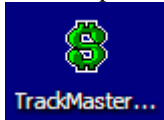

[Click here to print these instructions.](#)

Select "Run" or "Save" - If you choose "Run", the installation should start automatically after the file has downloaded.

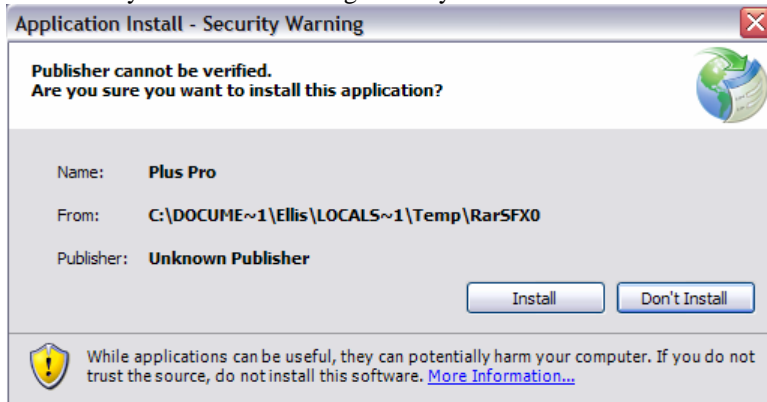

Some browser configurations only offer a "Save" option. If you would rather save the file before installing or if you are only offered the "Save" option, save the file to your desktop. The file is named TrackMasterPlusProSetup_EQB.exe.

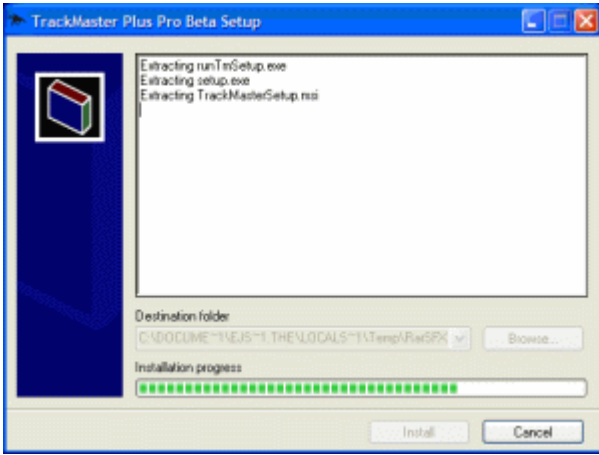

If you have saved the file rather than choosing "Run", click on the icon to start the installation process. Depending on your computer's memory and operating system there may be a delay after clicking on this icon.

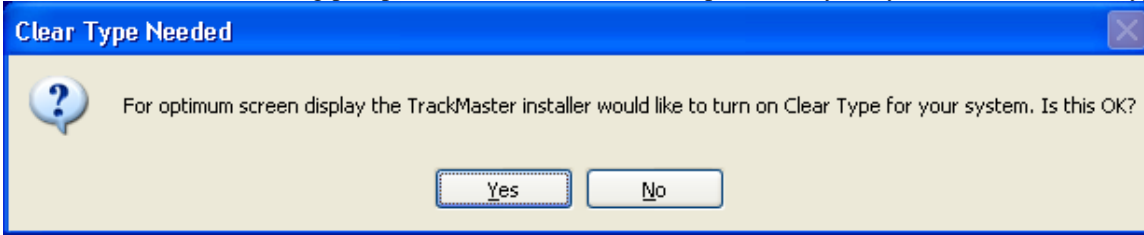

If you see the following screen you must click on the "Install" button to continue installing TrackMaster Plus Pro.

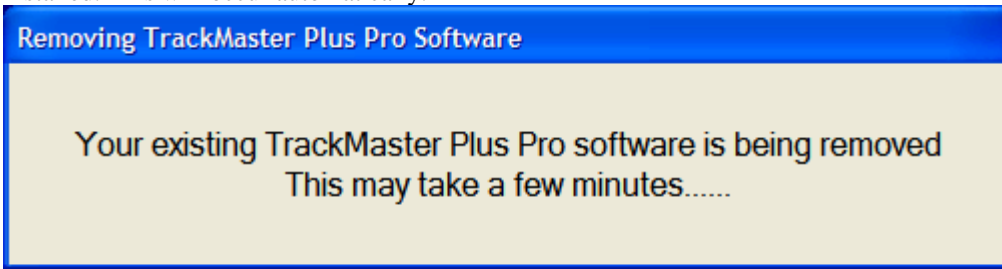

The screen below will come up automatically and will not require you to do anything.

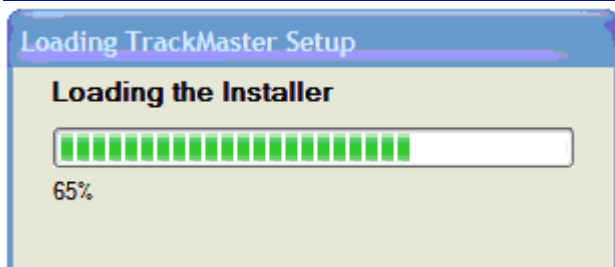

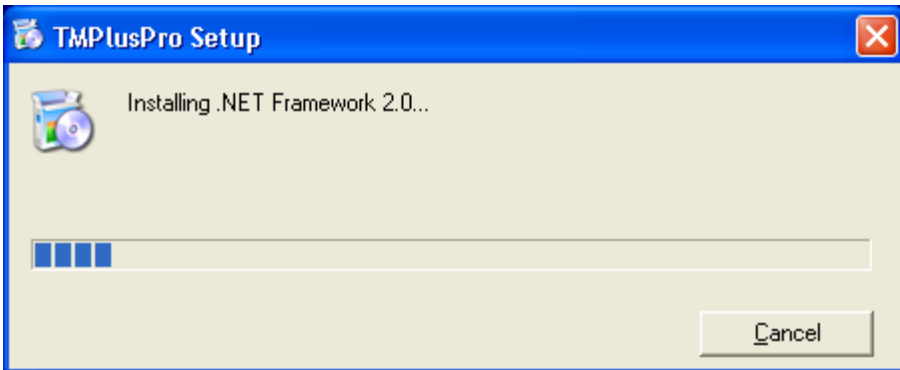

For the best results in viewing past performances, the installation process may ask you to enable “Clear Type”, Click YES

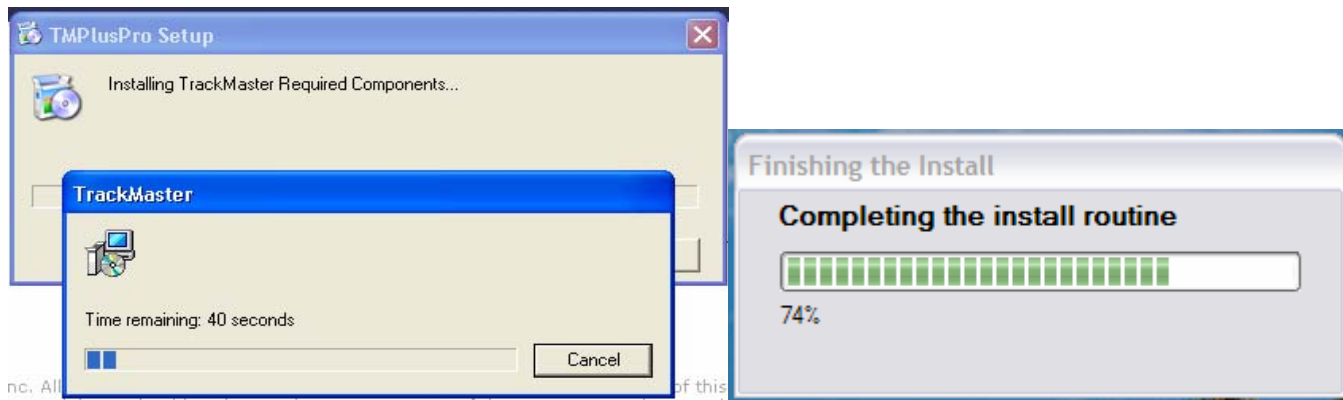

If you have a previous version of TrackMaster Plus Pro on your computer, it will be uninstalled before the new program can be installed. This will occur automatically.

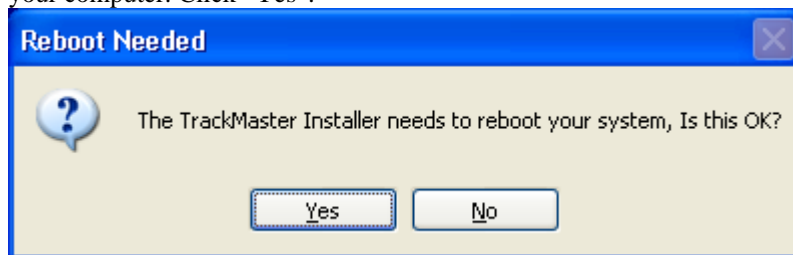

You should expect to see these screens during the installation process. Depending on your computer’s memory and operating system there may be a delay after beginning the installation process and before seeing these screens. The screens you see below will come up automatically and will not require you to do anything.

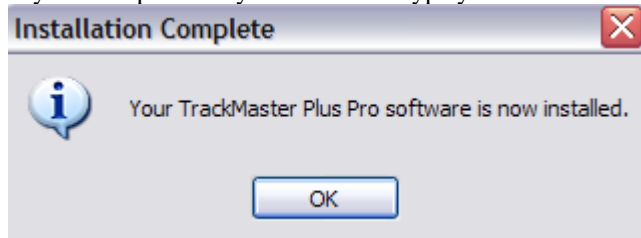

At the end of the installation process you will see one of the two screens below.

If you have enabled “Clear Type” for the first time, at the end of the installation you will see the message below asking you to reboot your computer. Click “Yes”.

If you have previously enabled clear type you will see the message below telling you that the installation is complete. Click “OK”

When the installation process is complete, whether your computer rebooted or not, you can start the program via the TrackMaster@Plus Pro icon on your desktop. The program contains demo files so you can see the power of Plus Pro.

You can then purchase Plus Pro files for use with the program individually by track and date by going [here](#) or you can buy a [subscription](#) that will save you time by allowing you to access new files directly from within Plus Pro, and will save you money, with subscriptions starting at \$44.95 per month for 20 race cards as opposed to \$3.75 per card if purchased individually.

If you have problems with installation, please contact us at feedback@equibase.com or by phone at 800-333-2211.
