F.A.S.T. Sheets Statistics: Class - An average of recent class ratings. Speed - An average of recent speed ratings. Early - An average of pace figures for the first quarter of a race. Late - An average of pace ratings for the last quarter of a race. Platinum - The horse's average overall pace figure adjusted by class, speed, power rating and earnings per start. Break - Propensity of a horse to break during the race.

Basic Strategy: The TrackMaster F.A.S.T. Sheets for Harness Racing attempt to model how a race is likely to unfold while assessing each horse's probability of winning and producing acceptable (fair) odds for the contenders. As post time nears, if only one contender has odds equal to or higher than its acceptable odds (an overlay), then wager on that horse to win. If there is more than one overlay, a bet on the largest (post-time odds to one)/(fair odds to one) ratio is advised.

Exotic Strategy: For exactas and trifectas, one strategy is to box the overlays and play the overlays with the other contenders. For serial exotics (Daily Double, Pick 3, etc.), an acceptable strategy is to key the contenders that are overlaid versus the morning line and play them with the other contenders.

For an extensive help guide to the TrackMaster F.A.S.T. Sheets for Harness Racing, go to our web site (trackmaster.com) under Selections/F.A.S.T. Sheets for Harness Racing.
